Help youngsters to think of "neighbour" concept, the same time "other one", "different", in the wide sense "discrimination", respect to others with help of arts. Art and photography will help youngsters to see the concept of other youngsters to the same theme, how people can understand the same thing differently.

Target Groups:

Activities:

We aim to hold photography competition after an exhibition of pictures in Ankara-Turkey (anyone who lives here) which are taken by youngsters for the concept of "dialogue with neighbors" (in the wide sense, neighbor countries, regions etc.). We will ask youngsters to take pictures for, what does "dialogue with neighbors" mean to them, in what kind of actions do they see this concept, take pictures of them. Youngsters could work with youth workers to take their pictures, the pictures doesn't have to be taken by professional camera or professionally. They will then upload them onto a website to be judged by the general public. On 22nd May 2008 the voting will be over, we will have a big night of Euro-Mediterranean Night where the participants, NGO's who were involved get together, publish the pictures with an exhibition.
